Information to 911 Dispatch from caller **– EXERCISE ONLY** _there has been an accident at the train crossing at 1st and Main. A train hit a large truck and several train cars came off the tracks and hit other cars, including a school bus. It looks like there are kids on the bus. There is smoke coming from the derailed cars, but I do not see any fire. **EXERCISE ONLY**

Multiple similar calls are coming into the 911 center.

0840

Scene description for crew to dispatch – **EXERCISE ONLY** on scene of a train derailment, approximately 10-15 tankers and boxcars, with yellowish smoke coming from the tankers. Approximately five vehicles were hit by the derailed train including a school bus with kids onboard. Unable to see the other side of the tracks to tell if there are additional cars involved. People are fleeing from the area and are complaining of difficulty breathing and burning eyes. **EXERCISE ONLY.**

911 - Questions

What type of response does this event receive from your dispatch?

Does your community have all the resources needed to respond to this incident or does outside agencies need to be contacted?

If there are external organizations or personnel needed who would contact them and how?

Supervisor – Questions

Based on the 911 call and on scene report for the crew.

What is your agency's response to the scene?

Are there additional notifications to make, if yes what are they and how are they made?

What additional resources do you need, if any, how do you request and receive them?
