

Medical Surge Capacity

Proposals for Discussion

Medical Surge Types

1. Internal Medical Surge

- Floor beds
- ICU
- AIIR
 - Use Bed Sub Type.
 - Each Facility Sets it up on their own
 - We always count this capacity separate from Total and Available

Medical Surge

2. External Facility for Medical Surge

- Floor Beds ?
- ICU?
- AIIR?
 - HRTS database is already set up to create surge relationships between facilities. Modify Facility Home page to search, find and establish a surge site relationship. Add Pop up so that the facility can see facility details on their own page.
 - Provide indicator on the surge sites page that they are a surge site for Facility ABC

Medical Surge

- 3. HCC Sites (ACS)
 - We will create the sites in HRTS. They will be Typed Hospital/Aux Care Site
 - Daily Updates Coordinated by the RHC

Analytics

- Build Med Surge Dashboards and Reports
 - Visible to all facilities?
