

# PSD Safety Roadshow

## About the Safety Roadshow

The Safety Roadshow is a fully equipped, mobile training center that provides an interactive experience to support worksites across the US. We do that by providing in-person safety training, education, and demonstrations that focus on Personal Protective and Safety equipment.

The Safety Roadshow trailer offers scheduled, on-site customer events that can seat up to 53 individuals at a time in the mobile classroom as well as demo trainings. A variety of topics are available. In addition, the Safety Roadshow can make appearances at industry and distributor trade shows.

### Available Classroom (C) & Demo (D) Trainings:

- Respiratory Protection (C)
- Fall Protection (C&D)
- Hearing Protection & Earfit testing (C&D)
- Dropped Objects (D)
- Construction & Silica (C)
- Metalworking, Welding & Fire (C&D)
- Eye Protection (C)
- Scott Safety & Fire (D)

## Example Visit

- Typical Schedule:
  - 15-minute Introduction, 2-3 educational sessions and/or demos.
- Ideal for groups of 100-500 attendees rotating through a schedule in small groups.
- Optional Certificates of Completion for attendees as desired.

## Course Descriptions:

1. **Respiratory Protection (30 min.):** Overview of the basics of respiratory hazards, the types and styles of respiratory protection, and the factors in choosing a respirator.

2. **Fall Protection (45 min.):** Overview on fall protection awareness, highlighting and focusing on the most important areas. Session includes the ABC's focus on inspection, use, fall clearance and proper work practices. Fall demo available.
3. **Hearing Protection/Conservation (30 min.):** Discussion on the proper precautions to prevent noise induced hearing loss, how hearing loss can affect your quality of life, the health effects associated with loud noises, and how to reduce the noise at the source. Additional topics include how electronic hearing protection products can improve hearing and communication in noisy environments.

**3M™ E-A-Rfit™ Dual-Ear Validation System Testing (5 min/person):** The 3M™ E-A-RFit™ Dual-Ear Validation System is a quantitative fit testing system for earplugs and earmuffs. It is a fast and easy way to find the amount of noise reduction your employees will receive from their hearing protection, the way they put it on. We have a 3M™ E-A-RFit™ Dual-Ear Validation System on the Roadshow and can demo the system and test employees.

4. **Eye Injuries (30 min.):** Overview of eye injury prevention, statistics, how and why to fit safety eyewear, how eye protection interacts with other PPE, and a look at other eye protection options.
5. **Metalworking/Welding Hazards (30 min.):** Overview on health and safety standards such as respiratory hazards & protection, arc radiation hazards, noise hazards, and head, eye, & face impacts affecting those who work with metal. Welding demo available.
6. **Construction Silica Regulation (30 min.):** Overview of the OSHA Construction regulation and how it may relate to the job site.
7. **Scott Safety & Fire:** Custom demo available.
8. **Dropped Objects Prevention:** Demo on safety of dropped objects.

## How to Schedule a Visit

All Safety Roadshow events are to be scheduled through a 3M Personal Safety Division sales representative.

**Personal Safety Division**  
3M Center, Building 235-2W-70  
St. Paul, MN 55144-1000

**In the United States of America**
